Summary

As a highly skilled and motivated student, I bring a wealth of expertise in Agile Methodologies, Java, Python, and Test-Driven Development (TDD). My educational background includes two enriching experiences at WeThinkCode, where I successfully completed LinkedIn Skill Assessments in various areas.

My proficiency extends to Docker, SQL, Continuous Integration and Continuous Delivery (CI/CD), and Acceptance Testing, reflecting my commitment to delivering high-quality software solutions. Additionally, I am well-versed in cloud platforms, with a strong focus on Amazon Web Services (AWS) and .Net.

Having completed educational programs at Ekurhuleni West College, I have obtained valuable skills in Cloud Services, AWS Cloud, Computer Hardware, and Computer Networking. I am proud to have received endorsements for my competence in Gitlab, Project Management, and Problem Solving.

In my role as EWC Bootcamp Assistant, I played a crucial part in guiding and supporting learners through Cloud Computing and AWS. This experience earned me endorsements for AWS re/Start Graduate, Visual Basic .NET (VB.NET), and proficiency in Python, HTML, Cascading Style Sheets (CSS), and JavaScript.

I am committed to continuous learning and have successfully completed LinkedIn Skill Assessments in multiple domains. My dedication to teamwork is evident from my collaborative experiences at WeThinkCode, where I received an endorsement for effective collaboration.

As an individual passionate about Information Systems, I am excited about leveraging my diverse skill set to contribute to innovative

projects and drive success. Let's connect and explore opportunities to collaborate and achieve remarkable results together.
