M. Marble Tjatji

Intern at Zensar Technologies | WeThinkCode_ Alumni | Software Developer | Enthusiastic about Cloud Technologies | Aspiring Salesforce Developer.

Johannesburg Metropolitan Area

Summary

Hey there! I'm a highly motivated student with a passion for software development and a strong foundation in a variety of technologies.

During my time at WeThinkCode, I've gained extensive experience in Agile Methodologies, Java, Python, and Test-Driven Development (TDD). My expertise extends to Docker, SQL, Continuous Integration and Continuous Delivery (CI/CD), and Acceptance Testing, reflecting my dedication to delivering high-quality software solutions. I also have a solid understanding of cloud platforms, particularly Amazon Web Services (AWS), and .Net technologies.

At Ekurhuleni West College, I acquired valuable skills in Computer Hardware, and Computer Networking. I've received endorsements for my competence in Project Management, and Problem Solving, validating my proficiency in these areas.

I'm passionate about Information Systems and excited about leveraging my diverse skill set to contribute to innovative projects. My dedication to teamwork is evident from my collaborative experiences at WeThinkCode.

Let's connect and explore opportunities to collaborate on exciting projects and achieve remarkable results together!

Experience

Zensar Technologies

Cloud Computing Intern

May 2024 - Present (1 month)

InternCareer

Python Developer

January 2024 - February 2024 (2 months)

Summary:

Honed Python skills in a fast-paced remote internship, focusing on data processing and web scraping techniques. Leveraged libraries like pandas and BeautifulSoup to automate data extraction, cleaning, and transformation for valuable insights.

Key Responsibilities:

Developed Python scripts using libraries like pandas and BeautifulSoup to extract data from various websites.

Implemented data cleaning techniques to handle inconsistencies and missing values.

Transformed raw data into a structured format for analysis and visualization.

Collaborated with senior developers to ensure efficient and scalable solutions.

Education

WeThinkCode

Computer Software Engineering · (September 2022 - December 2023)

Amazon Web Services (AWS)

AWS re/Start · (July 2021 - October 2021)

Ekurhuleni West College

Information Technology · (2017 - 2019)
